EDUCATION

- M.A.G.I.S.T., University of California, Los Angeles** 2025
(*Master of Applied Geospatial Information Systems and Technologies*)
Capstone (GEOG 498/499): applied research and cartographic production for the Tahoe Regional Planning Agency (TRPA)
- Graduate Certificate in Digital Humanities, University of California, Los Angeles** 2025
Final paper for DH 250 Critical Cartography (Dr. Nour Joudah): 'Cartographic' Representation, Simulacra, and Representation-Reality Feedback – reads early commercial recording expeditions as geographic knowledge production, mapping recording locations and talent birthplaces from the Discography of American Historical Recordings
- GIS and Geospatial Technology Certificate, UCLA Extension** 2023
- B.A., Ethnomusicology, University of California, Los Angeles** 2021
Senior thesis directed by Dr. Timothy D. Taylor: Music Festival Participation and Memory as a Work of Art: Embodying Community Encounters and Problematizing Application of the Carnavalesque
- B.A., Anthropology, University of California, Los Angeles** 2021

PROFESSIONAL EXPERIENCE

- UCSB Library, Special Research Collections** Santa Barbara, CA
Audio Digitization Technician 12/2022 – 09/2023; 02/2024 – 03/2025; 11/2025 – present
- Discography of American Historical Recordings (DAHR) / American Discography Project**
- Control traffic of 78rpm discs from stacks to the Henri Temianka Audio Preservation Lab and back, keeping the discographic documentation and digitization phases of the workflow “in step” under National Endowment for the Humanities funding adp.library.ucsb.edu
 - Transfer grooved media to archival digital audio; supervise student assistants transferring discs and photographing disc labels and runoff areas
 - Process, organize, and quality-check audio files, images, and metadata into Submission Information Packages before staging and publishing to the project repository; contributed 4,000+ unique recordings and 4,600+ label images in the first two appointments alone
 - Ingest foreign assets and metadata for post-custodial partnerships, e.g., the 2025 Dust-to-Digital release news.ucsb.edu/2025/022193
 - Assess and reprocess content from older Submission Information Packages as project conventions evolve
- Archival Processing and Description**
- Digitize and create item-level inventories for audiovisual materials in performing arts collections (see **Collections Processed**), including format identification and personnel/date research
 - Apply controlled vocabularies and prepare descriptive metadata for EAD finding aids submitted to the Online Archive of California; crosswalk metadata between local and repository standards with FileMaker Pro and Python/ODBC scripting
 - Stage and publish digitized audio and metadata to public access platforms (Aviary) and internal repositories following UCSB Library SRC metadata conventions
- Digital Asset Management and Systems**
- Develop Python microservices with FFmpeg and ODBC to batch-process assets and metadata gitlab.com/ucsb-lib/src-avlab-microservices
 - Build, maintain, and extend bespoke FileMaker Pro solutions for digital asset management and metadata remediation, including a complete overhaul of the cataloging and digitization staff’s solution for the UCSB Cylinder Audio Archive cylinders.library.ucsb.edu and a solution for the Sound Recording Trade Catalogs collection
 - Log workflow status across multi-year, grant-cycle projects so that work is tracked and repeatable
- Supervision and Documentation**
- Supervise student assistants in the audio preservation lab, conservation lab, and stacks
 - Write and refine documentation for physical handling and digitization of grooved media (wax cylinders, shellac, vinyl, lacquer), magnetic media (open reel, audiocassette, VHS), and for batch-processing and ingest workflows used in student training
- Ganna Walska Lotusland** Montecito, CA
Library and Archival Collections Volunteer 05/2026 – 08/2026
- Completed a folder-level inventory of Lotusland’s non-living (cultural and historical) collections in CatalogIt in support of collections cataloging efforts

COLLECTIONS PROCESSED

- Discography of American Historical Recordings (American Discography Project), UCSB Library SRC** 2022 – present

- Online 78rpm discography with 98,000+ recordings digitized and streaming; physical preservation, audio digitization, traffic control, content management, post-custodial ingest adp.library.ucsb.edu

UCSB Cylinder Audio Archive, UCSB Library SRC

- Online wax cylinder database with 15,000+ recordings digitized and streaming; FileMaker Pro solution redesign, content management, metadata remediation cylinders.library.ucsb.edu

John Steinbeck SoundScriber Discs (Mss 164), UCSB Library SRC

- SoundScriber dictation discs recorded by John Steinbeck in the 1940s; item-level inventory, audio digitization [OAC finding aid](#); [Aviary collection](#)

Leon and Googie René Recordings (PA Mss 248), UCSB Library SRC

- Lacquer and vinyl records created by R&B artists Leon and Googie René and their contemporaries, 1924–1993; item-level inventory, format and personnel research [OAC finding aid](#)

Eula Beal Recordings (PA Mss 262), UCSB Library SRC

- Lacquer records created in the 1940s by contralto Eula Beal; item-level inventory [OAC finding aid](#)

Dame Judith Anderson Papers, Series XII: Audio Recordings (PA Mss 6), UCSB Library SRC

- 7-inch open reel tapes of stage performances by Dame Judith Anderson; item-level inventory, audio digitization [OAC finding aid](#)

AUDIOVISUAL PRESERVATION EXPERTISE

- **Grooved media:** transfer of pre-war and 78rpm-era sound recordings; evolution of attenuation (EQ) curves after the advent of electrical recording in 1925; coexistence of lateral- and vertical-cut records before stereophonic recording; physical preservation and cleaning of shellac, wax cylinders, vinyl, and lacquer/acetate discs
- **Magnetic media:** transfer of audiocassette, open reel, and VHS; adoption timeline of common formats; climate-controlled storage and baking for sticky-shed syndrome
- **Post-processing and packaging:** FFmpeg and archive-grade DAWs and video editors; Submission Information Package assembly; preservation and access derivative generation; local metadata conventions across several collections
- **Description:** item-level inventories; controlled vocabularies; EAD finding aids for the Online Archive of California; metadata crosswalking and remediation; workflow documentation for student training

SELECTED GEOSPATIAL PROJECTS

Full gallery with maps, reports, web apps, and notebooks at aggis.org/maps and aggis.org/files/notebooks.

Tahoe Regional Planning Agency capstone – GEOG 498/499, UCLA MAGIST

2025

- Transportation equity study; conifer encroachment analysis; lake water clarity analysis with the Normalized Difference Turbidity Index (ArcGIS Pro)
- Vikingsholm accessibility check: ArcGIS StoryMap proposing expanded parking at Emerald Bay State Park aggis.org/maps/vikingsholm
- Sea-level-rise animation and inundation risk assessment; operations dashboard; capstone video
- TRPA Data Explorer notebook pulling parcels, transit stops, and trail layers from TRPA ArcGIS REST services (Python, geopandas)
- Cartographic exercises in Adobe Illustrator: USGS-style topographic map, Tahoe land cover map, TART Mainline bus route map

Geospatial statistics with R – GEOG 413, UCLA MAGIST

2025

- Kernel density estimation, spatial autocorrelation (Moran's I / LISA), and spatial regression reports (RStudio)

Remote sensing – GEOG 411, UCLA MAGIST

2024

- Supervised object-based classification with Landsat 8; vegetation (NDVI) change detection with NAIP imagery (ArcGIS Pro)

Interactive web maps – GEOG 414, UCLA MAGIST

2024

- Leaflet: 2020 Moldova presidential runoff results; socioeconomic marginalization in Mexico with user-selectable variables and color ramps aggis.org/maps/unit2a, [unit2b](#)
- D3: evolution of income and income inequality, 1800–2010 (Gapminder); time series of Italian migration, 1900–2014 (iSTAT) aggis.org/maps/unit4, [unit5](#)
- Hosted WMS/WFS services with GeoServer and PostGIS; deployed a web mapping stack on AWS EC2 with nginx, Tomcat, and Let's Encrypt

iSTAT Migration History Timeline – DH 201, UCLA Digital Humanities

2024

- Exploratory data visualization of Italian National Institute of Statistics time series (1869–2014), published as an ArcGIS Online time-slider app aggis.org/maps/istat

Python geospatial tools – GEOG 412, UCLA MAGIST

2024

- Jupyter notebooks: Airbnb exploration and local-area analytics tools (Los Angeles, Amsterdam); 2020 POTUS election maps; North American Ski Explorer with geocoded radius search; World Bank API economic and demographic mapping tool (geopandas, folium, requests)

DAHR Global Recording Explorer – ArcGIS Online web app

2023

- Joined DAHR's matrix and georeferenced place tables to map recording locations for nearly 70,000 78rpm records, with interactive widgets for label, date, and artist exploration; cleaned character-encoding and timestamp edge cases for use in ArcGIS Online aggis.org/maps/dahr

Geospatial database design – GEOG 410, UCLA MAGIST

2023

- Designed and documented a PostgreSQL/PostGIS geospatial database; spatial SQL, views, raster analysis, indexing, and security

Advanced and intermediate GIS – GEOG XL 181A/181B, UCLA Extension

2022 – 2023

- Digitized warehouse structures in San Bernardino, CA (final project); Moran's I LISA report for the 2016 U.S. presidential election (GeoDa); georeferenced Sanborn fire insurance maps for Redlands, CA (QGIS); fire hazard mapping for residential parcels in Riverside, CA; site suitability analysis for outdoor recreation; 3D mapping of natural disasters
- Viewshed analysis with T-Mobile cellular coverage; interpolation with IDW and empirical Bayesian kriging; network analysis for retail catchment areas; cost-path analysis across the Darién Gap; environmental health atlas with map series; interactive ModelBuilder tool

Cartography – GEOG XL 180, UCLA Extension; personal work

2022 – present

- Olympic National Park unofficial visitor's map (Adobe Illustrator); Strava-derived bicycle heat maps from harvested GPX routes aggis.org/maps/bike; speculative sea-level-rise world-building maps aggis.org/maps/rpg

GRADUATE AND POST-BACCALAUREATE COURSEWORK

UCLA, Master of Applied Geospatial Information Systems and Technologies (2023 – 2025)

- Applied Spatial Data Science; Geospatial Databases and Data Management (PostgreSQL/PostGIS); Programming for Spatial Data Science I (Python) and II (JavaScript, web mapping); Geospatial Imagery Analysis; Applied Spatial Statistics (R); Spatial Data Science Futures (Google Earth Engine); Capstone I: Geospatial Research Methods and Capstone II: Geospatial Capstone Project (TRPA); Introduction to Statistical Reasoning (R)

UCLA, Graduate Certificate in Digital Humanities (2024 – 2025)

- Core Seminar in Digital Humanities; Professional Trajectories: Digital Humanities Methods in Practice; Introduction to Critical Cartography and Theories of Mapping

UCLA Extension, GIS and Geospatial Technology Certificate (2022 – 2023)

- Introduction to GIS; Cartography; Intermediate GIS; Geospatial Databases and Enterprise GIS; Advanced GIS; Web Design (COM SCI X 418.102A)

FUNDING AND AWARDS

- MAGIST True Bruin Scholarship (\$3,848), University of California, Los Angeles, 2023

RESEARCH INTERESTS

- History of popular recorded music and the development of genre-specific ethos and aesthetics
- Formal, musical, and lyrical analysis of historical recordings cross-referenced with contemporary print and artistic materials
- Geography of the early recording industry: studios, broadcast stations, executive offices, venues, and vendors; spatial exploration of discographic metadata
- Time-series and historical GIS for demographic and cultural change; critical cartography and the pedagogy of library data visualization
- History of reference mapping, GPS, and navigation technology for everyday use

LANGUAGES

English (native); Spanish (three years of high school and university study; spoken with family during critical language development)

TECHNICAL SKILLS

Archives and Collections: FileMaker Pro, CatalogIt, OpenRefine, Aviar; EAD/OAC finding aids; controlled vocabularies; metadata crosswalking and remediation; Submission Information Packages

Audio and Video: FFmpeg, Steinberg Wavelab & Cubase, Logic Pro, Audacity, Renoise; grooved and magnetic media playback and transfer

Code Languages: Python, SQL, ODBC, JavaScript, HTML/CSS, R, L^AT_EX; Unix and PowerShell shells; Git

Specialties: scripting and batch processing, data parsing/transformation/visualization, REST APIs

Desktop GIS: ArcGIS Pro, QGIS; porting to Adobe Illustrator for refined cartography or animation

Geospatial Analysis: PostgreSQL/PostGIS, GeoDa, RStudio, Google Earth Engine, geopandas, rasterio

Web Mapping: ArcGIS Online (Web AppBuilder, StoryMaps, Dashboards), Leaflet, D3, GeoServer, folium

Adobe CC and Office: Illustrator, Photoshop, Premiere, Dreamweaver, Bridge; Microsoft Office, Google Workspace, LibreOffice
