Los Angeles, CA | aggis.org | aaron@aggis.org | gitlab.com/aaronggoodman | github.com/leependu | linkedin.com/in/aaronglenngoodman

EDUCATION

University of California, Los Angeles 2025
Master of Applied Geospatial Information Systems and Technologies
Graduate Certificate in Digital Humanities

UCLA Extension 2023
GIS and Geospatial Technology Certificate

University of California, Los Angeles 2021
Bachelor of Arts in Ethnomusicology
Bachelor of Arts in Anthropology

WORK EXPERIENCE

UCSB Library, Special Research Collections 12/2022–09/2023; 02/2024–03/2025; 11/2025–09/2026
Audio Digitization Technician

Project Contributions
- Controlled traffic of 78rpm discs en route to digitization lab for the Discography of American Historical Recordings (DAHR) adp.library.ucsb.edu
- Kept phases of DAHR's discographic documentation and digitization workflows "in step"
- Ingested assets for post-custodial partnerships, such as the Dust-to-Digital release
- Digitized and created item-level inventories for audiovisual materials in performing arts collections (various formats):
  - John Steinbeck SoundScriber Discs oac.cdlib.org/.../kt4489q2nz, aviaryplatform.com/collections/3890
  - Leon & Googie René recordings oac.cdlib.org/.../c8qj7rnt
  - Eula Beal recordings oac.cdlib.org/.../c8bz6f4q
  - Dame Judith Anderson papers, Series XII, Audio Recordings oac.cdlib.org/.../tf8x0nb6v0

Audiovisual Archival Experience
- Used controlled vocabularies and created EAD metadata for the Online Archive of California
- Transferred grooved and magnetic media to digital formats
- Managed digital assets created "in-house" and ingested externally created assets and metadata
- Developed Python scripts with FFmpeg and ODBC to process and organize assets and metadata into Submission Information Packages gitlab.com/ucsb-lib/src-avlab-microservices.git
- Built, maintained, or extended bespoke FileMaker Pro (FMP) solutions for digital asset management and metadata remediation, including for the Cylinder Audio Archive and Sound Recording Trade Catalogs collections
- Logged workflow status and crosswalked metadata between standards with FMP and Python/ODBC
- Staged and published assets and metadata to digital repositories

Supervisory Responsibilities
- Supervised student assistants in the Henri Temianka Audio Preservation Lab, Special Research Collections conservation lab, and stacks
- Updated documentation for digital asset management and batch processing workflows
- Refined documentation for physical handling and digitization procedures of audio materials, especially grooved media (wax cylinders, shellac, vinyl, and lacquer recordings)

Ganna Walska Lotusland 05/2026 – 08/2026
Library and Archival Collections Volunteer
- Contributed to collections cataloging efforts, including completing a folder-level inventory of Lotusland's non-living (cultural and historical) collections with CatalogIt

COMPUTER SKILLS

Office: OpenRefine, FileMaker Pro, Microsoft Office, Google Workspace, LibreOffice
Code Languages: Unix and pwsh/cmd CLI, Python, SQL, JavaScript, HTML/CSS, R
Specialties: batch processing, data normalization/visualization, APIs, ODBC, random forest ML
Adobe CC: Dreamweaver, Photoshop, Premiere, Illustrator, Bridge
DAWs: Logic Pro, Audacity, Steinberg Cubase & WaveLab, Renoise
Geospatial Data Analysis: PostGIS, RStudio, Google Earth Engine, GeoDa, geopandas, rasterio
Desktop GIS: ArcGIS Pro & QGIS, porting to Adobe for refined cartography or animation
