EDUCATION

University of California, Los Angeles	2025
<i>Master of Applied Geospatial Information Systems and Technologies</i>	
<i>Graduate Certificate in Digital Humanities</i>	
UCLA Extension	2023
<i>GIS and Geospatial Technology Certificate</i>	
University of California, Los Angeles	2021
<i>Bachelor of Arts in Ethnomusicology</i>	
<i>Bachelor of Arts in Anthropology</i>	

WORK EXPERIENCE

Ganna Walska Lotusland

Cultural and Historical Collections Volunteer

05/2026 – present

- Contributing to an item-level inventory of Lotusland's non-living / cultural and historical collections with Catalogit

UCSB Library, Special Research Collections

Audio Digitization Technician

[12/2022 – 09/2023] [02/2024 – 03/2025] 11/2025 – present

PROJECT CONTRIBUTIONS

- Controlling traffic of 78rpm discs for the American Discography Project / Discography of American Historical Recordings under funding from the National Endowment for the Humanities (\$349,721: 3 years)
- Publishing new audio content to the project website: adp.library.ucsb.edu
- Processing materials for patron requests or specific ADP / DAHR publications, including partnership with Dust-to-Digital news.ucsb.edu/2025/022193/vast-collection...
- Created an inventory for the Leon & Googie René papers: nearly one-thousand early rhythm-and-blues master recordings
- Digitized and created an inventory for the John Steinbeck SoundScriber Discs papers oac.cdlib.org/findaid/ark:/13030/kt4489q2nz

AUDIOVISUAL ARCHIVAL EXPERIENCE

- Transferring grooved media to digital audio, especially pre-war commercial sound recordings of the 78rpm era
- Transferring magnetic media (both audio and video) to digital format, especially audiocassette, open reel tape, and VHS
- Familiarity with UCSB Library SRC's metadata conventions for digitized content across several collections and formats
- Utilizing Python scripts and ffmpeg to process and organize audio files, metadata, and images before pushing to project repository

SUPERVISORY RESPONSIBILITIES

- Supervising student assistants in the Henri Temianka Audio Preservation Lab, Special Research Collections conservation lab and stacks
- Creating and refining documentation for digitization procedures of audio materials, especially grooved media (wax cylinders, shellac and vinyl records)

COMPUTER SKILLS

OFFICE: openrefine; FileMaker Pro; Microsoft Office; Google Office Suite; LibreOffice

CODING LANGUAGES: SQL, Python, HTML/CSS, JavaScript, R; Unix and pwsh/cmd CLI

GEOSPATIAL DATA ANALYSIS: PostgreSQL/PostGIS; RStudio; Google Earth Engine; GeoDa

DESKTOP GIS: ArcGIS Pro, QGIS; porting to Adobe for refined cartography or animation

ADOBE CC: Photoshop, Premier, Dreamweaver, Illustrator

D.A.W.: Logic Pro, Audacity, Renoise, Steinberg Cubase / Wavelab; ffmpeg
